

QUALITY LABORATORY POLICY

ATF lab personnel are committed to good professional practice and to providing high quality testing and calibration service to their customers in accordance with procedures, work instructions and customers' requirements.

ATF lab personnel assure that test methods adhere to customer requirements, the requirements of the standards described in the Scope of Accreditation, Certificate Number 1101-01 and/or in compliance with the ISO/IEC 17025.

ATF lab personnel concerned with testing and calibration activities shall familiarize themselves with quality documentation, policies and procedures in their work.
